

PIERRE-AMI MAUDOUX

Environmental economist with strong data science skills and four years of experience working in international institutions (EIB, FAO). I am passionate about developing data-driven solutions to environmental and natural resources issues. Having lived and worked in eight different countries, I am fluent in three languages (FR/EN/ES) and thrive in multicultural environments.

EXPERIENCE

current
|
2018

● Statistician/Economist

FAO of the UN

📍 Rome, IT and Barcelona, ES

- Produced data visualisation (R, PowerBI, Tableau, QGIS) for official FAO publications and presentations at major international events (including COP25)
- Streamlined and increased automation in the management of the fisheries and aquaculture employment database. Created a comprehensive R application to perform data imputation on the joint FAO-OECD employment database.
- Represented FAO at the UN's International Symposium on the use of Big Data for official statistics (Hangzhou, 2019)
- Co-authored chapters in high-profile publications (see publications section below)
- Contributed to the revision of key statistical dissemination and collection tools (SOFIA, FishStatJ, Statistical Yearbook, data collection questionnaires)

2018
|
2018

● Trainee

European Investment Bank

📍 Luxembourg, LU

- Produced a new methodology based on the NACE classification to better estimate lending statistics for the Bank's Blue Economy projects.
- Developed a dataset of hundreds of environmental performance indicators specifically designed for operations taking place in marine and coastal areas.

2014
|
2014

● Intern

Umicore

📍 São Paulo, BR

- Performed weekly financial reporting of sales to the business unit management, cost reduction monitoring, one-off financial reporting tasks (e.g. precious metal hedges, product profitability), and sales forecasting of speciality products over a 6 months period.
