ABOUT ME

Environmental economist by training, official statistician by trade. I specialise in applying data science to modernise the production of fisheries and aquaculture statistics at FAO. My work features the automation of statistics production pipelines, the production of varied and sophisticated data visualisation products, and recurrent co-authorship of flagship FAO publications. Having lived and worked in eight different countries, I thrive in the multicultural environments of international institutions.

WORK EXPERIENCE

2018 – Present

Statistician/Economist

Food and Agriculture Organization (FAO) of the UN · Rome, IT and remote

- **Modernised statistical production** for the FAO-OECD's global fisheries and aquaculture employment database: built R and SharePoint applications that streamlined and automated data processing, imputation, validation and archiving for 190+ countries
- **Co-authored chapters in high-profile publications** (including FAO's SOFIA, OECD-FAO's Agricultural Outlook) and a working paper (SSRN, 2026) on labour productivity in aquatic food sectors (panel econometrics), under peer review
- **Produced widely disseminated data visualisations** (static/animated/interactive, with R, Shiny, PowerBI, Tableau, QGIS, Flourish) and dashboards for official FAO publications, the fao.org website and presentations at major international events (including COP25, COFI36, COFI37)
- **Led the modernisation of key statistical dissemination tools** (FAO's Fishery and Aquaculture Statistical Yearbook and Country Profiles) and contributed to the review and improvement of SOFIA, FishStatJ and data collection questionnaires
- **Represented FAO as speaker/presenter** at COFI36 (Rome, 2024) and the UN's International Symposium on the use of Big Data for official statistics (Hangzhou, 2019)

2018

Trainee

European Investment Bank · Luxembourg, LU

- Produced a new methodology based on the NACE classification to better estimate lending statistics for the Bank's Blue Economy projects
- Developed a dataset of hundreds of environmental performance indicators specifically designed for operations taking place in marine and coastal areas

EDUCATION AND TRAINING

2015 – 2017

MSc, Environmental and Natural Resource Economics

University of Copenhagen · Copenhagen, DK

- GPA: 10.8/12
- Thesis: "Water Quality Improvements from Macroalgae Aquaculture in Denmark: A Contingent Valuation Study"

2013 – 2015

CEMS Master in International Management

Louvain School of Management · Louvain-la-Neuve, BE

- Cum laude
- Thesis[1]: "An analysis of the contributions of management science to corporate GHG emissions reductions"
- Semester exchange at NOVA School of Business and Economics (Lisbon, Portugal)

2010 – 2013

Bachelor degree in Economics and Management

Université catholique de Louvain · Louvain-la-Neuve, BE

- Cum laude
- Minor in Chinese studies

LANGUAGE SKILLS

Language(s)

	LISTENING	READING	SPOKEN INTERACTION	SPOKEN PRODUCTION	WRITING
French	C2	C2	C2	C2	C2

BASIC	**Python**

PUBLICATIONS

2026

Counting work in global fisheries: sex-disaggregated employment, labour productivity and data gaps across aquatic food sectors [2]

SSRN Working Paper No. 7100469 (preprint, undergoing peer review)

- Co-author (with Gee, Pinello, Matthiasson & Polymeros)
- Statistical analysis of FAO employment data, 180 countries, 1995–2023

2020 – 2026

The State of World Fisheries and Aquaculture (SOFIA)

FAO

- Co-author: "Employment in fisheries and aquaculture" and "Fishing Fleet" sections (2026[3], 2024[4], 2022[5] editions)
- Co-author: "Fish utilization and processing" and "Fisheries and aquaculture projections" sections (2020[6] edition)

2025

Review of the state of world marine fishery resources – 2025[7]

FAO

- Member of the editorial board for statistics

2023

Fishery and Aquaculture Statistics – Yearbook 2020[8]

FAO

- Led the effort to modernise the publication, designed and reviewed data visualisations

2020

Agricultural Outlook 2020-2029[9]

OECD-FAO

- Co-author: chapter 8, on the market situation and medium-term projections for world fish markets

CONFERENCES AND TRAINING DELIVERED

2020 – Present

FishStatJ training

FAO · Various locations

- Conducted regular training sessions on FishStatJ[10]
- As part of internal FAO trainings, but also as part of courses at the University of Alicante[11] and CIHEAM Zaragoza[12]

2024

36th Session of the Committee on Fisheries (COFI)[13]

FAO · Rome, IT

- Presented FAO's work on fisheries and aquaculture statistics to the conference's attendees with interactive data visualisations

2019

International Symposium on the Use of Big Data for Official Statistics[14]

UN Global Working Group on Big Data · Hangzhou, CN

- Presented four applications of big data in FAO's fisheries and aquaculture division

COURSES AND CERTIFICATIONS

2022

Data Scientist with R Track[15]

DataCamp · Online

- 30 courses, 88 hours Data Science certification covering data importing, cleaning, manipulation, visualisation, and machine learning through video lectures, case studies and skills assessments

2020

The Complete SQL Bootcamp[16]

Pieran Data on Udemy · Online

- Fundamental SQL training with PostgreSQL

2019

Geographic Information Systems Specialization[17]

UC Davis on Coursera · Online

- Comprehensive certification (24 weeks) covering basic to advanced GIS concepts and practice with ArcGIS
